

A DAY OF AWARENESS

Change your cellular chemistry
from life denying to life affirming!

We are driven by our deep subconscious feelings and beliefs and this, live unbalanced lives.
(Physically, emotionally, mentally or spiritually.)

We will move through the process of moving beyond our limiting core beliefs, so we can change our own experience and move to a state of wellness and peace.

If you feel "called" to expand your awareness and become more of who you truly are, then please join us for an openhearted, compassionate and life affirming journey!

SUN. OCTOBER 14, 2012
